State Law – Florida’s A+ Plan, School Grades: School Grades are based on how well students have mastered the Sunshine State Standards – the skills Florida teachers determined our children must learn at each grade level – which are measured by the Florida Comprehensive Assessment Test (FCAT). Student scores are classified into five achievement levels, with 1 being the lowest and 5 being the highest. Schools earn points based on three things: how well students are doing, how much progress they are making (learning gains), and how much progress struggling students are making in reading and mathematics.

Federal Law – No Child Left Behind Act: requires each subgroup (all ethnic groups, students with disabilities, students learning English, and economically disadvantaged students) in schools, districts, and the state as a whole to make adequate yearly progress (AYP) in reading, mathematics, writing, and graduation rate. Schools that do not make enough progress for two years in a row are in need of improvement, and must provide alternatives to parents – such as transferring to another school or participating in a different program within the school. Schools that need improvement two years in a row (do not make AYP for 3 consecutive years) must provide tutoring.
